

# “ECONOMICS AND SUSTAINABILITY OF BIOFUELS INVESTMENTS”

30TH APRIL 2007

- ✓ A private equity firm with focus on biofuels
- ✓ Euro-Latin Capital and Olympia Holding are building over **1 million tons of capacity** in the USA and Argentina
- ✓ Pursuing other biofuels and feedstock projects throughout the Americas

# SUSTAINABILITY AND CARBON

- STIMULATE LOWEST CARBON ALTERNATIVES

ETHANOL

- ❖ Brazilian sugar cane – 90% carbon reduction
- ❖ US Corn Ethanol – at best 20% reduction  
– pressure on food prices

BIODIESEL

- ❖ SME – 78% carbon reduction
- ❖ but; – pressure on food prices
- ❖ Opportunities in Tropical and Non-Edible Oils
- ❖ Rain Forests must be preserved

# DISTRIBUTION

- PIPELINES KEY TO MOVING BIOFUELS

- ✓ Parallel pipelines for ethanol
- ✓ Biodiesel (B5) can use US pipeline system
  - ❖ Successful in Europe
  - ❖ No contamination with Jet Fuel
  - ❖ Need to leave politics out

MAKE 20 IN 10 WORK

# ECONOMICS

## - STIMULATE LOWEST CARBON ALTERNATIVES

- ✓ Economies of Biofuels investments are compelling but challenged by higher feedstock prices;
- ✓ channelling investments to new feedstocks;
- ✓ and, Governments should stimulate investments in lower carbon alternatives, offering;

KEY  
TO MAKE  
20 IN 10  
WORK

➤ **Attractive returns for preserving the planet**
